

RHINO™ LABELS

FOR PROFESSIONAL LABELING

RHINO LABEL ADVICE: CAN YOU TAKE IT?

DO

use flexible nylon labels for labeling wires and cables.

use permanent polyester for professional labeling on flat surfaces.

use heat shrink tubes for superior water resistance (eg. marinas, wash-down sites, etc).

use vinyl labels for color-coding applications (voice, data, internet, video).

only use RHINO labels with RHINO 5000, 3000 and 1000 label printers.

expect compliments and pats on the back for your impressive-looking RHINO labeling jobs. *(You'll just have to get used to it.)*

DON'T

use permanent polyester on wire or cable – it's not designed for curved surfaces.

order 3/4" wide labels for RHINO 3000 or 1000 – they hold labels up to 1/2" wide. You'll need RHINO 5000 to handle 3/4" wide labels.

worry about peeling off these labels from their backing. The split-back design makes your work super-easy, fast and productive.

worry about your labels smudging. Our thermal print technology "lasers" your labels – so there's no surface ink to rub off. Instead, "the ink is inside each RHINO label."

look on the floor for your RHINO labels – ours are "stick-and-stay" labels that remain right where you apply them.

RHINO LABELS

OVER 50 MATERIALS, SIZES AND STYLES TO TACKLE YOUR JOB

FLEXIBLE NYLON – Curved or flat surfaces. Wires, patch panels, machinery, equipment, bins, etc.

PART #	DESCRIPTION	LENGTH	Color		
			White	Yellow	
18488	White Flexible Nylon Tape 1/2" (12mm)	11.5'	X	X	X
18489	White Flexible Nylon Tape 3/4" (19mm)	11.5'	X	X	X
18490	Yellow Flexible Nylon Tape 1/2" (12mm)	11.5'	X	X	X
18491	Yellow Flexible Nylon Tape 3/4" (19mm)	11.5'	X	X	X

PERMANENT POLYESTER – Flat surfaces. Equipment, bins, patch panels, etc.

PART #	DESCRIPTION	LENGTH	Color		
			Metallized	Clear	White
18482	White Perm Poly Tape 3/8" (9mm)	18'	X	X	X
18483	White Perm Poly Tape 1/2" (12mm)	18'	X	X	X
18484	White Perm Poly Tape 3/4" (19mm)	18'	X	X	X
18485	Metallized Perm Poly Tape 3/8" (9mm)	18'	X	X	X
18486	Metallized Perm Poly Tape 1/2" (12mm)	18'	X	X	X
18487	Metallized Perm Poly Tape 3/4" (19mm)	18'	X	X	X
18508	Clear Perm Poly Tape 3/8" (9mm)	18'	X	X	X
622289	Clear Perm Poly Tape 1/2" (12mm)	18'	X	X	X
622290	Clear Perm Poly Tape 3/4" (19mm)	18'	X	X	X

VINYL – All surfaces. Ideal for outdoor and color-coding applications. Warning messages, wires, patch panels, equipment, machinery, etc.

PART #	DESCRIPTION	LENGTH	Color			
			White	Yellow	Orange	Green
18443	White Vinyl 3/8" (9mm)	18'	X	X	X	X
18444	White Vinyl 1/2" (12mm)	18'	X	X	X	X
18445	White Vinyl 3/4" (19mm)	18'	X	X	X	X
18431	Yellow Vinyl 3/8" (9mm)	18'	X	X	X	X
18432	Yellow Vinyl 1/2" (12mm)	18'	X	X	X	X
18433	Yellow Vinyl 3/4" (19mm)	18'	X	X	X	X
18434	Orange Vinyl 3/8" (9mm)	18'	X	X	X	X
18435	Orange Vinyl 1/2" (12mm)	18'	X	X	X	X
18436	Orange Vinyl 3/4" (19mm)	18'	X	X	X	X
18437	Red Vinyl 3/8" (9mm)	18'	X	X	X	X
18438	Red Vinyl 1/2" (12mm)	18'	X	X	X	X
18439	Red Vinyl 3/4" (19mm)	18'	X	X	X	X
18440	Green Vinyl 3/8" (9mm)	18'	X	X	X	X
18441	Green Vinyl 1/2" (12mm)	18'	X	X	X	X
18442	Green Vinyl 3/4" (19mm)	18'	X	X	X	X

HEAT SHRINK TUBE – Wire and cable.

PART #	DESCRIPTION	LENGTH	Color		
			White	Yellow	
18051	White Heat Shrink Tube 1/4" (6mm)	5'	X	X	X
18053	White Heat Shrink Tube 3/8" (9mm)	5'	X	X	X
18055	White Heat Shrink Tube 1/2" (12mm)	5'	X	X	X
18057	White Heat Shrink Tube 3/4" (19mm)	5'	X	X	X
18052	Yellow Heat Shrink Tube 1/4" (6mm)	5'	X	X	X
18054	Yellow Heat Shrink Tube 3/8" (9mm)	5'	X	X	X
18056	Yellow Heat Shrink Tube 1/2" (12mm)	5'	X	X	X
18058	Yellow Heat Shrink Tube 3/4" (19mm)	5'	X	X	X

NON-ADHESIVE – Patch panels, distribution blocks, faceplates, etc.

PART #	DESCRIPTION	LENGTH	Color		
			White	Yellow	
18111	White Non-Adhesive Tag 1/4" (6mm)	18'	X	X	X
18112	White Non-Adhesive Tag 3/8" (9mm)	18'	X	X	X
18113	White Non-Adhesive Tag 1/2" (12mm)	18'	X	X	X
18114	White Non-Adhesive Tag 3/4" (19mm)	18'	X	X	X
18115	Yellow Non-Adhesive Tag 1/4" (6mm)	18'	X	X	X
18116	Yellow Non-Adhesive Tag 3/8" (9mm)	18'	X	X	X
18117	Yellow Non-Adhesive Tag 1/2" (12mm)	18'	X	X	X
18118	Yellow Non-Adhesive Tag 3/4" (19mm)	18'	X	X	X

Industrial-strength adhesives
Easy to load and peel
Won't smear or fade

RHINO labels meet demanding standards and specifications. In five materials and a range of widths, RHINO labels are engineered for many applications and surfaces.

Our customers stick with labels that stay stuck! It's your call. Choose generic office labels that stick only in perfect conditions (no moisture, heat, solvents or an occasional breeze) – or select tough, jobsite-tested RHINO labels that are built to handle the rigors of your installation.

Thousands of commercial and residential system installers, network engineers, facility managers and others use RHINO labels, every day. Easy to load, print and peel, they're always up to your speed and task – outperforming those labels you might find at your feet, the next time you visit someone else's installation.

LABELS

Features:

- Super-strong adhesives resist moisture, heat, UV and more – so labels won't curl or fall off.
- Easy-load label cartridges snap into your RHINO 1000, 3000 or 5000 label printer.
- RHINO labels' easy-peel, split-back design makes applying them quick and easy.
- Advanced thermal transfer print technology keeps labels from smearing, smudging or fading.

RHINO PROFESSIONAL LABELING TOOLS
HOW DO YOU SIGN YOUR WORK?™

RHINO HAS THE RIGHT LABEL—FOR EVERY SITUATION AND SURFACE!

RHINO™ LABELS

FOR PROFESSIONAL LABELING

WIRE/CABLE, OUTDOOR AND CURVED SURFACES:

WIRE AND CABLE

Select → **RHINO FLEXIBLE NYLON** or **RHINO HEAT SHRINK TUBES**

Speed, Efficiency, Reliability

Specially-designed to meet the challenges of identifying wire and cable, these top-performing nylon labels and heat shrink tubes “wrap in a snap” — just one reason they’re our top-sellers.

OUTDOOR SURFACES

Select → **RHINO VINYL LABELS**

Resist the Elements

You dress for the weather. The same with RHINO labels. Because they print with thermal transfer technology, they’re “insulated” against smearing from moisture, solvents and chemicals. And industrial-strength adhesives prepare them for anything.

CURVED SURFACES

Select → **RHINO FLEXIBLE NYLON**

Handle the Curves

Your truck can corner with the best of them. RHINO labels are just as responsive. Ideal for pipes, machinery and more — our labels really grab hold. Just like a new set of tires.

FLAT SURFACES:

SMOOTH SURFACES

Select → **RHINO PERMANENT POLYESTER, METALLIZED PERMANENT POLYESTER, VINYL** or **NYLON LABELS**

Keep Things Moving Smoothly

You might think our labels for smooth surfaces are less “rough and tumble” than our outdoor and flexible performers. Not a chance! All RHINO labels feature our advanced adhesives for superior results.

ROUGH SURFACES

Select → **RHINO FLEXIBLE NYLON**

When the Going Gets “Rough,” Get Flexible!

It makes sense. When a surface is uneven, you’d better be prepared. For “raised or bumpy” surface identification, reach for our flexible nylon tapes. Durable and dependable, they let you grab hold of any rough-surface labeling challenge.

PLASTIC HOLDER (INSERTS)

Select → **RHINO NON-ADHESIVE TAGS**

Make the Message Stick. Not the Label.

Faceplates. Label sleeves. File drawers. Wire tags. Not all labeling applications require adhesives. That’s why RHINO has developed non-adhesive tag labels. So whatever non-stick label you need, ours are easy to create — and remove.

RHINO Research and Testing. **We took the time. You take the credit.**

Your reputation and ours are at stake with each RHINO label you print. Because if it’s hard to create, difficult to read, or drops to the floor — we both lose. At RHINO, our superior labels are exclusively designed for professionals who don’t settle for less. The materials we use pass rigorous inspection. Each tape cartridge we sell surpasses our high standards. Our goal? To ensure that RHINO products will reliably — and repeatedly — handle your workload.

Flexible Nylon

Especially useful for wire and cable wraps, we craft our flexible nylon labels from memory-resistant materials — so they wrap easily around curved surfaces (including wire and cable). Best of all, these adhesives stick even where dirt and oil pose threats. Want to try this with ordinary office labels? Better get a broom!

Vinyl

Ideal for general identification purposes where color-coding is essential, these help you improve the visual recognition of your warning and safety messages, patch panels/face plates and more. Easy to apply with maximum durability, these can be used in direct sunlight, as well — and are ideal for outdoor surfaces.

NEW

Heat Shrink Tubes

Specifically designed for any application requiring normal heat shrink tubing, these industrial-grade polyolefin labels help you eliminate one labeling step — by printing directly on the tubing. These advanced labels feature a 3:1 heat-shrink ratio. The cassette? It fits any RHINO tool (to make it even easier)!

Permanent Polyester

With a “shinier” finish than Flexible Nylon, these Permanent Polyester tapes reflect well on your professionalism — featuring a more sophisticated look that’s ideally suited for flat surfaces: name-and-rating plates, patch panels, cabinets, shelves, bins, equipment and more.

Metallized Permanent Polyester

Take your image up a notch — and select this highly polished finish. RHINO customers use this unique metallized silver on durable permanent polyester for asset tagging, face plates, factory equipment, tool bins — everywhere flat surfaces require visible and impressive identification.

Non-Adhesive Tags (Inserts)

Ideal for printing a quick label for a holder or sleeve — you’ll no longer need to carry books and cards. Just pull out your RHINO label printer and get to work. Constructed of non-adhesive polypropylene, each tag offers superior durability and rigidity.

NEW
