

**“IF IT’S NOT  
EASY TO USE,  
IT STAYS ON MY TRUCK.”**

**RHINO™ 3000 makes labeling as easy as heading home.** Designed by installers who know time is money, the RHINO 3000 is the labeling tool that thinks like you do – for fast and efficient labeling of home entertainment and automation, security, and wire and cable networking in residential and light commercial environments.

**The features you need. The ease you demand.** With unique, easy-to-use functions, RHINO 3000 offers powerful one-touch “Hot Key” functionality, serialization, label memory and a dozen more advances – to save you time on every job. And with its impact-resistant rubber bumper and back-lit display, you’ll have no problem handling it, finding it, even dropping it.

**RHINO labels stick and last.** Our labels features easy-to-peel, split-back styles in materials that resist heat, UV, moisture and more. And because they stick and stay stuck, you’ll build your reputation while you save time and money.

Get **RHINO 3000** and get the job done, for less. Visit [www.rhinolabeling.com](http://www.rhinolabeling.com) for more details.

Available at ADI, Security Equipment Supply, Silmar Electronics, and The Systems Depot.
